The Summer Sessions University of Maryland College Park Campus 1975

The Summer Sessions

The Summer Sessions at the University of Maryland make available educational opportunities for undergraduate and graduate students who wish to fulfill degree requirements in the shortest length of time, who wish to take courses that they cannot fit into their academic year schedules, or who need to make up deficiencies or test their ability to do college work. The Summer Sessions also seek to broaden and vary the instructional program by appointing outstanding visiting lecturers and to stimulate students' interests by providing an academic environment which includes a diversified cultural and recreational program. To meet specific educational needs, the Summer Sessions offer workshops and institutes for school personnel and other groups.

The extensive and varied course offerings, lectures, special institutes, and workshops are planned jointly by the department chairmen, deans, divisional provosts, and the Administrative Dean for Summer Programs. The courses offered are regular University courses taught by members of the faculty or visiting lecturers of outstanding ability.

Living Accommodations and Food Service

Any student properly registered for Summer Sessions (one credit or more) or in University-authorized workshops or conferences is encouraged to apply for accommodations in University residence halls.

Information and application/contract forms may be obtained after March 3, 1975 by writing or visiting:

Resident Life
3117 North Administration Building
University of Maryland
College Park, Maryland 20742

Fee listings effective Summer, 1975 are:

Fees for accommodations are payable in full in advance or on the date of registration for classes, each session. Housing charges are not listed on the enclosed Schedule Request and Estimated Bill form. Information on payment of housing fees is available from Resident Life after March 3.

A completed Residence Halls Application/Contract must be on file with Resident Life before services will be provided any student. Applicants may choose to contract for accommodations for Session I only, Session II only, or Sessions I and II. Accommodations are for the Summer Sessions only, and in no way affect the probability of any individual obtaining assignment to residence halls for any subsequent academic year. Accommodations for fall and/or spring semesters are secured only upon renewal of existing contract at a time scheduled and announced by Resident Life, or upon completion of separate application and contract procedures required of students new to the residence halls.

Each resident is responsible for the full term of the contract, unless release from obligation is secured from Resident Life.

Students are notified of hall assignment before registration for classes. No request for specific or preferred assignment can be accepted. Assignments are made on a random, chance-distribution basis. Most assignments are made to rooms designated for double occupancy. A limited number of single rooms is available. Singles are assigned first-come, first-served based on date application is received by Resident Life, not date of arrival to claim services.

Residence hall rooms are typically furnished with desks, desk chairs, lounge chair, twin beds, mattresses and pads, and chest of drawers. Curtains, desk lamps, waste baskets and other room accessories, as well as decorations and all personal effects, are not furnished. A weekly linen rental service is available.

Meals are served seven days each week, with three meals each day except Sunday breakfast. Facilities are in the Hill Dining Hall, Ellcott Community Dining Hall and Student Union. Summer Cultural and Recreational Activities

As a major part of its summer activities, the Campus offers an outstanding cultural and recreational program.

Plans for summer 75 include art, dance, drama, film and music. In addition to the plays, musical productions and formal concerts in the air-conditioned J. Millard Tawes Fine Arts Center, there will be an exciting Saturday evening series of informal outdoor musical events, both classical and popular, on the Chapel Green. The climax of the summer season will be the University of Maryland International Piano Festival and Competition. A complete calendar of events will be distributed at the beginning of the first session.

The 1975 season promises to be a most exciting one, planned to please all tastes. It continues the tradition of offering the summer community a culturally enriched atmosphere in which studies may be pleasantly pursued.

The Summer Recreation Program offers a wide variety of leisure time activities for the Campus community. The program includes such activities as recreational swimming, an art workshop, bridge, chess, and bowling tournaments; softball leagues; and a variety of others. The Summer Recreation Office also assists the promotion and coordination of programs offered by other units. Special services such as social hours and special swimming sessions may be requested by any group. Possession of the University of Maryland Summer Activity Card entitles the bearer to all the recreation opportunities of the University as determined by University Policy. A group fee may be charged to cover unusual expenses.

Student Health

The University Infirmary, located on the Campus near the Student Union, provides medical service for students enrolled for Summer Session courses on the College Park Campus. Students who are ill should report promptly to the University Infirmary. Serious emergencies may be reported by phone to Ext. 3444, or if transportation for emergency is needed, call 3555 on Campus phones or 454-3555 on a pay phone. Doctors' office hours are: weekdays, 8:00 a.m. to 5:00 p.m.; weekends, 9:00 a.m. to 11:00 a.m. Nurses are on duty 24 hours each day, and doctors are on call for serious conditions after regular hours.

UMporium - University Bookstore

The UMporium, University Bookstore, is located in the basement of the Student Union Building. Members of the University Community may purchase at reasonable rates textbooks, classroom materials, photographic materials, and many novelties, notions and gifts.

Automobile Registration

All students are required to register their automobiles at the time of registration for classes. A student must bring his/her operator's license and the state or District of Columbia automobile registration card containing the automobile tag number. Parking stickers for automobiles previously registered for the 1974-75 academic year will be honored for the 1975 Summer Sessions. For automobiles operated by new students or non-registered cars operated by continuing students, there will be a registration fee of \$3.00 which must be paid to Motor Vehicle Administration Office when vehicle is registered. (See Tuition and Fees). Vehicles must be registered by the legal operator only.

For use of students, staff members, and employees, several parking lots are provided. Students may park registered cars in lots 1, 2, 3, 4, 7 and 11. All other lots are reserved for faculty and staff members. University Regulations forbid the parking of cars on any Campus road or fire lane. These regulations are enforced by the Campus Office of Public Safety.

Libraries

Libraries of the University are the general University Library (the Theodore R. McKeldin Library), the Undergraduate Library, the Architecture Library, the Engineering and Physical Sciences Library, and the Chemistry Library. The libraries have a total book collection of over 1,400,000 cataloged volumes and currently receive more than 15,200 subscriptions to periodicals and newspapers. In addition, the libraries contain over 750,000 microtexts, over 200,000 U.S. government and United Nations documents, and thousands of phonograph records, maps, film strips, slides, and technical reports. Bibliographical facilities include card catalogs of the British Museum, Bibliothèque Nationale, and Library of Congress, trade bibliographies of foreign countries and special bibliographies of subject fields. Study carrels in the Theodore R. McKeldin Library are available to faculty members and graduate students whose study and research require these facilities. Lockers are available for assignment to graduate students. Facilities for reading microtext materials, for typing, and for copying are also provided. Interlibrary loan service is available.

Research Facilities

The research programs at the University derive their existence and vigor from a faculty comprised of internationally recognized scholars and scientists. It is an advantage for undergraduate students to be aware of the University's research facilities as they plan their program.

In addition to fine library resources and the usual laboratory facilities for undergraduate studies, the University has developed outstanding opportunities for research in the biological, physical, and social sciences. Among the exceptional facilities are the Institute for Child Study; the Natural Resources Institute; a Computer Science Center; a laboratory for basic behavioral research on animals; Van de Graaff accelerators; a training nuclear reactor; a full-scale, low-velocity wind tunnel; a psychopharmacology laboratory; and laboratory models for meteorological phenomena. Collaborative arrangements with many nearby government agencies permit qualified University students and faculty to utilize their research facilities. The University owns and operates the world's longest radio telescope, located in California. A 160 MeV cyclotron for research in nuclear studies is located on the College Park Campus.

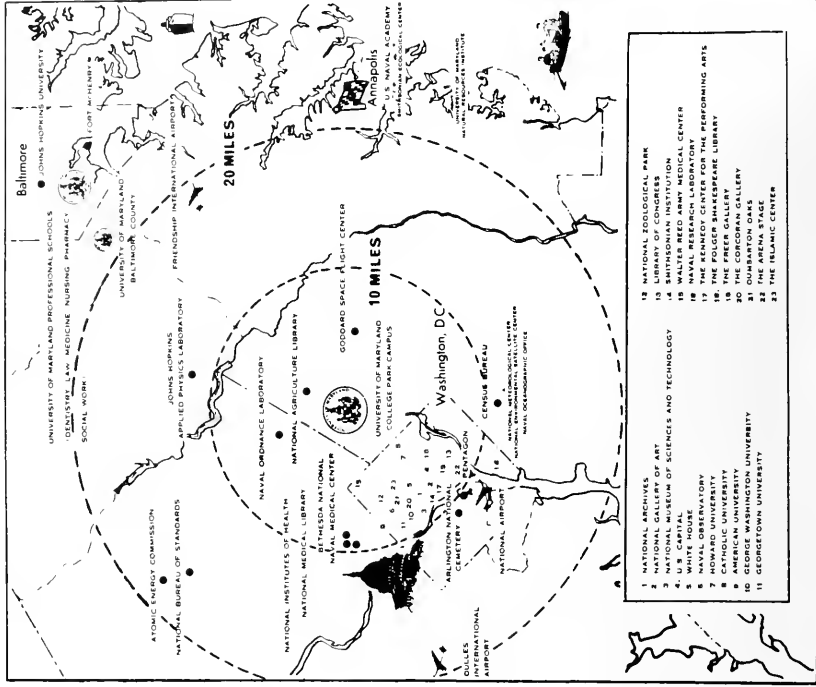

Investigation in agriculture is an important aspect of University research. University farms total more than 2,000 acres. Breeding, selection in farm crops, and soil research are a part of the program. Work in these areas is augmented by X-ray equipment and an electron microscope.

Other Area Resources

The College Park Campus is in a region which is unusually rich in libraries, research facilities, museums, galleries and cultural centers as illustrated by the map.

Summer Graduate Study

The Summer Programs offer a large selection of courses at the graduate level. A student desiring graduate credit at Maryland should apply and register under the most appropriate of the categories given below. Graduate students wishing to enroll in courses numbered 600 or above must be in an admitted status at the University of Maryland. Students who receive faculty guidance and wish to use the research facilities of the University during the summer must register for an appropriate number of credits. For more complete information contact the Graduate School at (301) 454-3141.

Graduates

There are three types of graduate students who are eligible for enrollment during the 1975 Summer Sessions on the College Park Campus.

1. **Continuing** — students whose graduate admission is still valid within the following time limits:
 - Doctoral—Five years from entrance date to be advanced to candidacy after which an additional four years are permitted for the completion of the remaining requirements, including the dissertation.
 - Masters & Nongraduate—Five years from entrance date unless shorter periods are specified in the offer of admission for visiting graduate students, NSF Institute and for some coursework only applicants.Admission is valid either until the completion of the degree for which admitted or until the expiration of time limits, whichever occurs first. A new application for admission is then required to change program and/or degree or non-degree status. The admitted status for both degree and non-degree seekers is continued only if departmental and Graduate School academic and administrative requirements are maintained.
2. **New Admissions** — students who are admitted for degree or non-degree purposes for one of the 1975 Summer Sessions and will continue in a subsequent semester.
3. **Visiting** — students who wish to attend the College Park Campus for the 1975 Summer Sessions only.

These requirements consist of 30 semester hours of credit distributed among the three areas listed below. (For an exception to this regulation, see the Bachelor of General Studies Program.) At least 6 hours must be taken in each area. At least 9 of the 30 hours must be taken at the 300 level or above. None of the 30 hours may be counted toward published departmental, college or divisional requirements for a degree.

Area A. 6—12 hours elected in the Divisions of Agricultural and Life Sciences; Mathematical and Physical Sciences and Engineering.

Area B. 6—12 hours in the Divisions of Behavioral and Social Sciences; Human and Community Resources.

Area C. 6—12 hours in the Division of Arts and Humanities.

In meeting these area requirements, students may choose from among any undergraduate courses for which they are qualified. Students are urged to consult academic advisors for guidance in determining which courses in each area best fit individual needs and interests.

Demonstration of competency in English composition. Unless the student has been exempted from English composition, at least one course in this subject will be required. Exemption is granted if the student earns an acceptable score on the Illinois Rhetoric Test administered by the Department of English (score announced annually), or a score of 2 on the English Advanced Placement Test, or by satisfactory completion of a similar course at another institution. Students taking a course to satisfy this requirement may apply the credits toward the 30-hour General University Requirement but may not count these credits toward the satisfaction of the minimum 6-hour requirement in any of the three designated areas. Credit for such a course may be in addition to the 12-hour maximum in any area.

Students who entered the University prior to June, 1973, have the option of completing requirements under the former General Education Program rather than the new General University Requirements. Each student is responsible for making certain that the various categories of either set of requirements have been satisfied prior to certification for the degree. Assistance and advice may be obtained from the academic advisor, the Offices of the Dean for Undergraduate Studies, or the Administrative Dean for Summer Programs.

Academic Information

ACADEMIC CREDIT

The information given below is taken from Academic Regulations, a complete statement of which may be found in the Undergraduate and Graduate Catalogs.

The semester hour is the unit of credit. During the Summer Session a typical 3 credit hour course meets five times a week for six weeks and requires daily preparation. Each class period is 80 minutes in length.

Students who are matriculated as candidates for degrees will be given credit toward the appropriate degree for satisfactory completion of summer courses. Each student is responsible for the determination of applicability of courses selected to the degree program and is urged to consult an academic advisor.

All students enrolled for credit will receive an official grade for each course.

MARKING SYSTEM

Grading methods are indicated for each course listed in the *Class Schedule*. The following symbols are used on the student's permanent record for all courses in which the student is enrolled after the initial registration and schedule adjustment period: A, B, C, D, F, I, P, S, and W. For undergraduate students the mark A denotes excellent mastery; B good mastery; C acceptable mastery; D marginal performance which does not represent satisfactory progress toward the degree. The mark F denotes failure. The mark I (incomplete) is an exceptional grade given only when the student has done satisfactory work, but is unable to complete all requirements of the course due to circumstances beyond his control. In order to be changed to a passing mark the work must be completed before the course is offered again. The mark W denotes that the student withdrew from a course in which the student was enrolled at the end of the schedule adjustment period. The W is entered on the student's permanent record but is not used in a computation of the academic average.

For graduate students, the following symbols are used: A, B, C, and S constituting superior to passing scholarship; D and F, reflecting failure. The pass/fail option is not available to graduate students.

PASS/FAIL OPTION

Undergraduate students who have completed 15 or more credit hours on the College Park Campus and have a cumulative average of at least 2.0 may register on a pass/fail basis if the course offers the pass/fail grading option. No more than 20 percent of the credits offered toward a degree may be taken on the pass/fail basis. A complete statement of regulations concerning the pass/fail option is available in the *Undergraduate Catalog*.

Definition of Full-Time Status

For those students seeking University certification of full-time student status, the following definitions will be applied:

UNDERGRADUATES

Normally, enrollment in courses totaling six semester hours of academic credit will be defined as full-time enrollment for one Summer Session. Enrollment for six semester hours of academic credit in each of the two Summer Sessions will be defined as full-time enrollment for the summer. Four semester hours of academic credit in each six week session constitutes full-time enrollment for Veterans Administration purposes.

GRADUATES

Enrollment in academic credits totaling 24 graduate units will be defined as full-time enrollment for one Summer Session. Enrollment in academic credits totaling 24 graduate units in each of the two Summer Sessions will be defined as full-time enrollment for the summer.

Courses in the series: 400-499 carry 4 units/credit hour.

Courses in the series: 600-898 carry 6 units/credit hour.

Variations on these normal maximum loads must be approved by the student's advisor and/or major department.

Advanced Placement Program

These examinations are normally given to eligible high school seniors during the May preceding matriculation in college.

Questions about the program may be addressed to the Director of Admissions and Registrations. Additional information is presented in the consolidated catalog. For detailed information about examinations and procedures in taking them, write to the Director of Advanced Placement Program, College Entrance Examination Board, 475 Riverside Drive, New York, New York 10027.

University Policy Statement

The provisions of this publication are not to be regarded as an irrevocable contract between the student and the University of Maryland. Changes are effected from time to time in the general regulations and in the academic requirements. There are established procedures for making changes, procedures which protect the institution's integrity and the individual student's interests and welfare. A curriculum or graduation requirement, when altered, is not made retroactive unless the alteration is to the student's advantage and can be accommodated within the span of years normally required for graduation. When the actions of a student are judged by competent authority, using established procedure, to be detrimental to the interests of the University community, that person may be required to withdraw from the University.

The University of Maryland, in all its branches and divisions, subscribes to a policy of equal educational and employment opportunity for people of every race, creed, ethnic origin, and sex.

MEMORANDUM

TO: Director of Business Services
Director of Admissions and Registrations
Administrative Dean for Summer Programs

FROM: Acting Vice Chancellor for Administrative Affairs *John J. King*

SUBJECT: Summer School Fees

It has come to my attention that there are errors in the '75 Summer Sessions Schedule of Classes, page 5, under Tuition and Fees in that the Student Health Fee per session is listed as \$2.00 and the Graduate Student Non-Resident credit hour cost is listed as \$72.00. The Regents established \$3.00 and \$77.00 respectively for these charges.

It is our view that the college catalog disclaimer statement concerning the changing of fees is an overriding document and that all Summer School students must be charged the fees as approved by the Board of Regents. Further, a disclaimer statement permitting the changing of fees should be inserted in future Summer Sessions Schedules and all departments preparing general information publications should obtain fee information from the Budget Office for use in such publications.
